Discover Exciting Opportunities at capzlog.aero AG

We are offering exciting internship and working student positions for talented and committed IT students. Find out more about our company and the innovative areas where you can make a difference.

About Us:

capzlog.aero is the leading certified digital pilot logbook. Our innovative software platform is based on .Net and simplifies the recording of flight times. Our goal is to streamline the entire process of flight time recording while ensuring compliance with the regulations of the European Union Aviation Safety Agency (EASA) and other civil aviation regulatory frameworks. With capzlog.aero, pilots at all career stages keep their personal flight experience. For instance, our platform offers an Auto-Import feature that automatically retrieves data from flight schools or airlines, saving pilots valuable time on manual data entry.

Why Join Us?

- Insights into the Aviation Industry: Become part of a dynamic team shaping the future of flight time recording and contributing to efficiency improvements in aviation.
- Hands-On Experience: Apply and expand your knowledge in software development and more.
- Startup Environment: Dive into the world of a growing startup and experience the spirit and agility of a young company.

Open Positions in Software Development:

- Contribute to the enhancement of our platform using the latest technologies to create optimal experiences for pilots.
- Work on a variety of projects, focusing on web and mobile applications, with the potential to influence features and design.

Technical Skills Required

- Basic knowledge and experience in at least one of the programming languages:
  C# (preferred), C++, or Java.
- Basic knowledge and experience with web technologies: **HTML, CSS, JavaScript**. Knowledge of **TypeScript** is an advantage.
- Basic knowledge of **SQL** and relational databases.
- Basic understanding of how **web applications** work.
- Basic understanding of **mobile apps and platforms (iOS, Android)**.

Non-Technical Skills

- Proficiency in **English** (both written and oral) at a good working level.

Soft Skills

- **Problem-solving and logical thinking:** Ability to think critically and find solutions for non-standard problems.
- **Eagerness to learn** and adapt to new challenges.
- **Readiness to participate** in a broad range of tasks, including development, testing, design, and feature discussions.
- **Interest in a wide spectrum of applications:** Web, mobile, CLI.

Benefits

- **Flexibility:** We offer flexible working hours to help you balance your studies and work with us.
  Dynamic Team: Collaborate with a motivated and engaged team working on innovative solutions.
- **Career Opportunities:** Take the chance to gather valuable experience in the aviation software industry and propel your career forward.
- **Home-Office:** Work from home or join us at our office located at Luegislandstrasse in Zürich.
